Mrs. King Tells of Wonderful Winter Holiday

It is by request that I hurriedly write a few of the high-lights of our nearly four months trip away from home.

Out of the past seven years, (except one) my husband and I, during the cold winter months, have wended our way to warmer clime.

The past winter has been the most outstanding and enjoyable of all.

We have made many new friends along the way and have been made happy in meeting and visiting with friends who resided in Raymond long ago.

We left Raymond Dec. 15th and since that time have not known one day of illness for which we are very grateful.

We arrived at our son Louis' home in Seattle Dec. 16, where we spent a very happy and enjoyable Christmas exchanging gifts, singing Carols, listening to Louis play the Hammond organ, partaking of the bounties of life and last but not least enjoying the association of former Raymond friends.

Dec. 30, we boarded the big boat, "Chippawa" and crossed the Puget Sound to Bremerton Wash. where we spent New Years with our daughter, Stella. While there our grand daughter Shirlene Hill gave birth to a baby girl, our fifth great grand child.

We were in Seattle and Bremerton nearly seven weeks where it rained almost continuously night and day, causing serious damage to many homes which literally slid down the mountain sides. The Seattle papers were full of photographs of deserted and destroyed homes. One nine year old girl was completely buried in mud and slush which had avalanched down the hill side into the home. Fortunately she had presence of mind enough to wrap a blanket around her which probably saved her life. Her little dog was buried for five days when someone heard him bark and rescued him. This little girl and her father appeared on TV telling their story. In one section 53 homes were pronounced in a precarious condition when the rain had subsided. My plans were to visit my sister in Santa Cruz, but owing to the floods I was unable to reach her.

From Seattle we left by bus for Los Angeles and Glendale California where we stayed for four weeks enjoying every moment of the time. The weather was balmy and sunny, the sky was clear, no rain, no smog, except one day.

Our grandson and his charming wife lived just around the corner from our Savoy Motel and they took us to many of California's interesting spots such as China Town, Olvera Street (the old street in L. A.) The Farmer's Market, (where we ran into Asael and Maydell Palmer), Forest Lawn Cemetery, where more than 1,500,000 sight seekers go each year. There are 1100 masterpieces of painting, sculpture, and stained glass. We were indeed thrilled when we entered that majestic Hall which enshrines America's largest religious painting, "The Crucifixion" by the famed Polish artist, Jan Styka. The founder was Dr. Hubert Eaton and it is said Paderewski dreamed the idea. This painting is 195 feet long and 45 feet high. It is longer than a 20 story building is high. The curtain alone costs \$30,000. It was purchased for Forest Lawn in 1944. "The Last Supper" was beautiful beyond description, (stained glass window) The Statuary, "The Mystery of Life" was fascinating and a study in art. One could enjoy standing there for hours. Many other pieces of art were a study of grandeur and

beauty in this unforgettable Memorial park.

We spent one day at "Knott's Berry Farm" and those of you who have been there know of the many attractions and fun found there.

We spent another day down by the ocean's edge, "Marineland of the Pacific" where we watched the underwater divers feed the fish by hand in the wondrous Oceanarium. We also watched the performance of the trained seals and porpoises. They said their prayers, played ball and threw a basket ball in the basket, rang bells, blew whistles and many other clever tricks including jumping several feet in the air to grab fish from their trainers mouth. Perhaps the feat, of the whole show and which caused the most merriment was the seal which stood on a platform and mocked the TV announcers.

We also spent an interesting evening at Mt. Wilson Observatory where we took a trip to the stars in the huge dome of the Planetarium.

In Disneyland we also took the rocketed round trip to the moon from the Disneyland Spaceport via TWA Rocket Ship and were awarded a Lunar Flight Certificate. The distance to the moon, 238,875 miles. What a thrill!

We also took a ride up the Nile in a boat and around every bend we came in contact with monkeys chattering in the trees, elephants, wild boars, cave men who kept shooting at us, excitement at every turn, Swimming towards us in the water were alligators, hippos, rhinoceros, snakes. Stella looked over the side of the boat and there close by us was a huge alligator. Did you hear her scream? Well they looked very real anyway. This is but a small sample of the fun we had.

We spent one afternoon at the big Santa Anita race tracks where the famous "Swaps" was supposed to run but was scratched which was a great disappointment to Mr. King.

We attended Quarterly Conference while in Glendale and who should come up and pat us on the back but Sam and Walter Fairbanks, and their wives and Lizzie Munns McMullen. It was so good to see these friends who once lived in Raymond.

Next day Nephi and Vilate Anderson, former residents of Raymond called for us taking us on a long ride through beautiful Pasadena and on to the famous Huntington Library in San Marion. In these botanical gardens there are over 50, thousand rare plants growing there. There are historical and literary works over 500 years old. From these beautiful gardens we were taken to the spacious lovely home of the Anderson's where we enjoyed a delicious dinner and a lovely evening. The three Anderson sisters sang five trios for us.

These charming lovely girls often sing on TV.

We also enjoyed dinner at the home of Joe and Louine H. Brammer who live in Alhambra. Since then Louine has given birth to a baby girl.

These are but few of the things we saw, and did but the high light of our entire trip was the privilege of going through the new and magnificent Los Angeles Temple three times. We went through once with our grandchildren when Stella flew from Bremerton to go with us, we then received a letter from Helen Kimball Orgill saying Hulda and Ben Cardwell, Ruth Stevens and others (former Raymond friends) would be there at a certain date and asked us to meet them there. That day, Monday, February 13th, 27, 000 persons went through.

Alberta's Natural Gas Industry:

TRANSMISSION

GAS Travels express!

Unlike most fuels natural gas cannot travel by road or rail. But "express transportation" is given by steel transmission lines through which gas is forced under pressure from production fields to Alberta's population centers. These pipelines are the "heavy-weights" of the natural gas system, and nothing is left to chance in laying them. All seams are carefully welded; then the pipe is cleaned, enamelled and wrapped to guard against corrosion, and finally "pressure tested". When in the ground transmission lines are tested yearly — maintained in top shape to give "express transportation!"

With GAS you get service
— we plan it that way!

It was remarkable the respect and quietness during these tours.

From California we went to Mesa Arizona where we enjoyed meeting some of our good friends on the Mesa Temple grounds including Elder Rogers, Melvin King's missionary companion in England some years ago. We also visited Brother Logan Brimhall whom we love very much. He's Pres. of the Bureau of Information and has charge of 60 guides. Also had the pleasure of going through the Temple several times.

From Mesa we went to Cedar City to visit our daughter Necla. While there we rode down to St. George, had dinner then took some movies of the St. George Temple and the two homes of Brigham Young.

From Cedar City we went to visit our daughter LaYonne at American Fork. While there we went to the Alpine Stake Conference where we met more Raymond people.

From American Fork we went out to Idaho to visit Ted King and other friends and relatives in that old town where we played as children, grew up, fell in love and were married. From there we came to Canada as M. I. A. missionaries and here we remained.

From Idaho we went to Ogden and visited my two sisters and a brother. We also visited old friends and relatives in the old town of Plain City near Ogden, the place where I was born.

While in Ogden my sister and husband took us to Huntsville where we saw President David O. McKay's old homestead, the lawn which he cuts with a mowing machine for his grand children to romp and play ball in, the pasture where he keeps ponies for the grand children to ride.

From Ogden we went to the General Conference which we enjoyed very much. Every turn we made we ran into someone from Canada and after being away for nearly four months it was good to meet our dear old friends from home.

After Conference we set out for our Home Sweet Home — the best place of all.

Excerpt from letter to S. B. Smith from his son Tennyson who is at present in the University of Utah —

Rene and I had a slight accident on our way back to Salt Lake from Los Angeles, in which I broke my back. We lost our car but since Rene was not hurt and I am around (carrying a huge cast) we feel blessed anyway.

I have been able to pass my chemistry exams for my Ph. D. and have only to write my thesis now. So it looks like I'll be getting my degree June 2nd.

In spite of this accident, I have a very good job waiting for me in Conollys Park in Los Angeles at the Atomic International Division of North American Aviation. I will be a Senior Research Engineer, trying to discover ways of removing fission products from Uranium fuel.

We did not take the children with us thank goodness so aside from the chicken pox they are as well as ever.
